Welcome to *poesía* - a collection of 25 Spanish poems written to support beginner learners.

In this pdf document you will find two copies of each poem: the first is in full colour, suitable for projecting onto the board or including in a display, while the second is in a “printer friendly” format, mainly black and white, which will be preferable for printing or photocopying for your students. Each poem is followed by a vocabulary card to aid comprehension.

You also have a folder containing the image files of the poems in .png format, so that you can drop the poems easily into your PowerPoints or Smartboard resources.
